

Homework will be for this half term; the children are asked to bring one completed piece in every Friday to share with the class. Team points will be awarded for each piece completed.

Year 3's theme this half term is My Big Blue Planet. In School, we will be learning all about plants in Science, cooking a range of delicious delights in Design Technology and researching volcanoes and earthquakes in Geography. In English, the children will be reading and performing poetry, writing an explanation text on plants and writing their own folk tale. We will also be learning about Christianity (Jesus) during Religious Education and learning basketball in PE.

Science

Draw and label your favourite flower.
Can you make a flower change colour?
Have a go.

Computing

Explain to a grown-up about the dangers of people talking to us online and what we should do when this happens.
Can you make a leaflet to explain it to a Year 2 child?

Maths

Using your Maths Shed login details, have a go at the games.
Money- when you go shopping, make a list-try and use our methods to add it up and estimate the total before reaching the till.

Design Technology

Write about your favourite thing to cook. What ingredients do you need? Can you write the instructions? Why is it your favourite thing to cook/bake?

Year 3-

My Big Blue Planet

Geography

Recreate a volcano- can you make it erupt?
Research an earthquake and the impact it had. Where was it? When did it happen?

Music

Can you show your grown-ups how to sing the chorus of True Colours? Video it and send it to us.

You can email any videos, pictures or work to Year3@anderton.lancs.sch.uk

English-

Research some poems and find your favourite. Ask a grown up to video you performing it and send it to us. Can you make up your own actions?

Spellings

Using your Spelling Shed login details, go online and have a go at practising your spellings.

Religious Education

Rewrite the Easter Story. Can you put it in order? Can you name all of Jesus' disciples?
